

## Finishing Options

We work with the finest materials and suppliers available, allowing us to guarantee a high-quality product. We always seek to innovate in forms and processes without losing the essence of our artisanal techniques. Below you can view all the finishes available for your lighting product.

## Wood Options

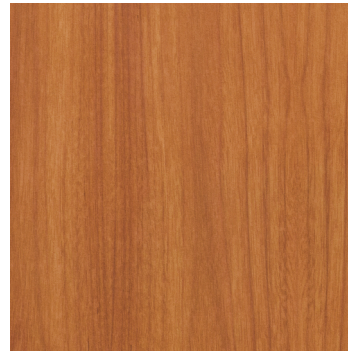

There are **7 natural veneer finishes** and **4 paint-over** that you can choose from! Each piece of Accord Lighting's fine wood lighting is finished by hand, involving many steps. Woods have grain and color variations due to growth patterns of each tree. Finishes ordered at different times are not guaranteed to match. The result is a beautiful and unique piece. On this page, we strive to provide an accurate representation of our finishes; however, due to changes in lighting, monitors, limitations of photography, and actual wood used for the product, slight color variations from actual wood finish samples and digital images is to be expected. Not all finishes are available on every item.

06  
IMBUIA

09  
LOURO FREIJÓ

12  
TEAK

18  
WALNUT

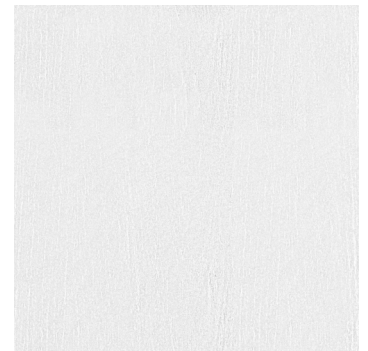

34
