History

Where we started

ACCORD was founded in 1997 as a fine furniture factory in the countryside of southern Brazil, from the dream of three brothers working together with the legacy of the family: carpentry. In the early 2000s we were already recognized for the quality of our products and services, but as restless minds, we decided to look for something new. In 2005, we translated all our know-how to harmonize wood with light, thus resulting in ACCORD Lighting.

Where we are

Over the years and as a result of our hard work, we have become one of the most respected Brazilian companies in the industry of decorative lighting. Our lamps are used in the most relevant interior design projects and decoration events in the country, as well as in scenarios of the main Brazilian television networks. We have in our customer portfolio the best specialized lighting and decoration retailers of Brazil and our lamps are loved by professionals who have presented us with the most beautiful projects. Since 2014 we have been selling our products around the world with representatives and distributors all over the world, which has made ACCORD Lighting an internationally recognized brand.

Where we're going

Through all these years, with the fast evolution of technology, it has been our challenge to manufacture high quality luminaires without losing the handcrafting techniques taught by our founders. Today our production process combines high-tech equipments and technology with the irreplaceable manual work, resulting in the best wooden luminaires of the World. Our dream is to bring light and sophistication all over the world — one lamp at a time

Passion & Technology

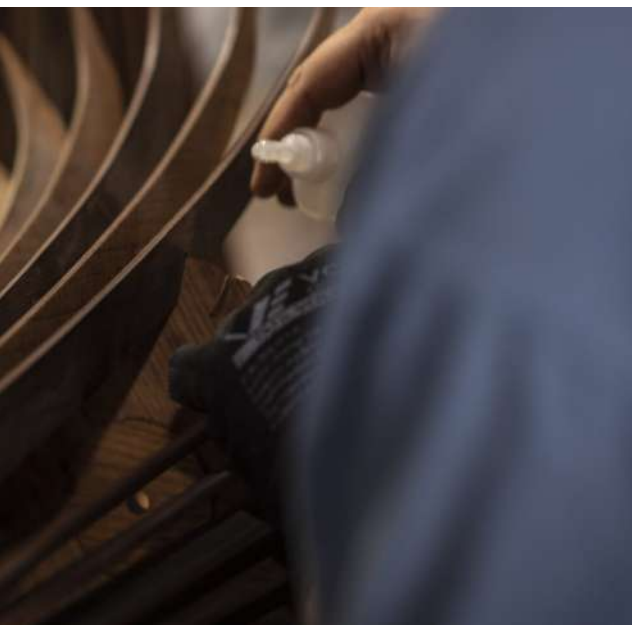

Everything started from the family tradition of woodworking, giving it the time and the attention to turn it into something with value. Our production process involves the meticulous work of at least 30 of our artisans in the production of one single piece. By aligning the handcraft techniques taught by our founders with technology, we find the perfect balance between tradition and innovation.

Since 1997

28 Years being passionate about wood, we always believe in the timeless design and in the beauty of the craftsmanship to create durable and sophisticated wooden products.

light
&
sophistication

Finishing options

We work with the finest materials and suppliers available, allowing us to guarantee a high-quality product. We always seek to innovate in forms and processes without losing the essence of our artisanal techniques. Below you can view all the finishes available for your lighting product. There are **7 natural veneer finishes** and **5 paint-over wood finishes** that you can choose from!

Metal parts finishing options

All products have a standard metal finish that will be described below the item number. You can also choose another finish from the list below.

02
MATTE BLACK

25
IRIDESCENT WHITE

38
PALE GOLD

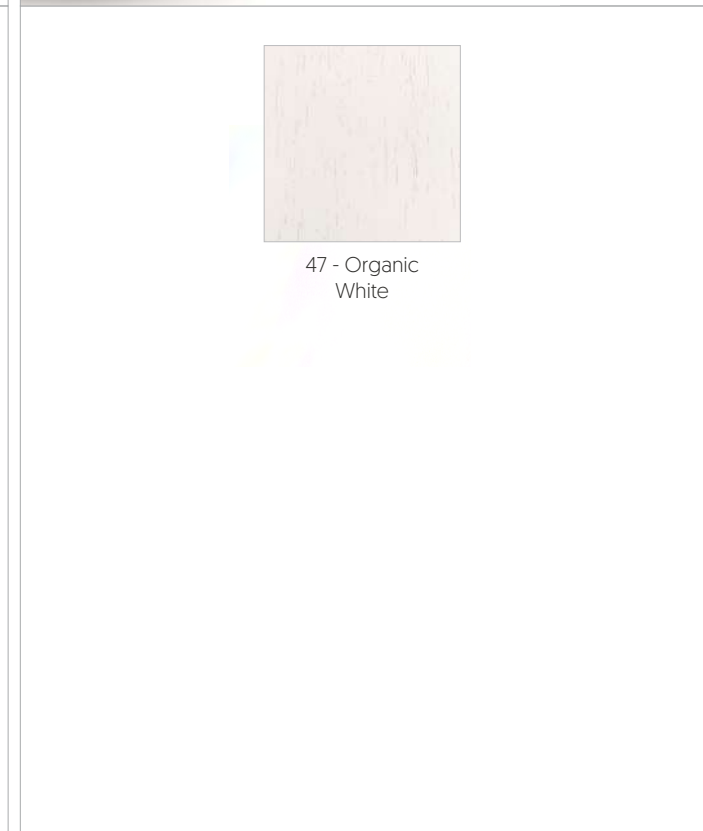

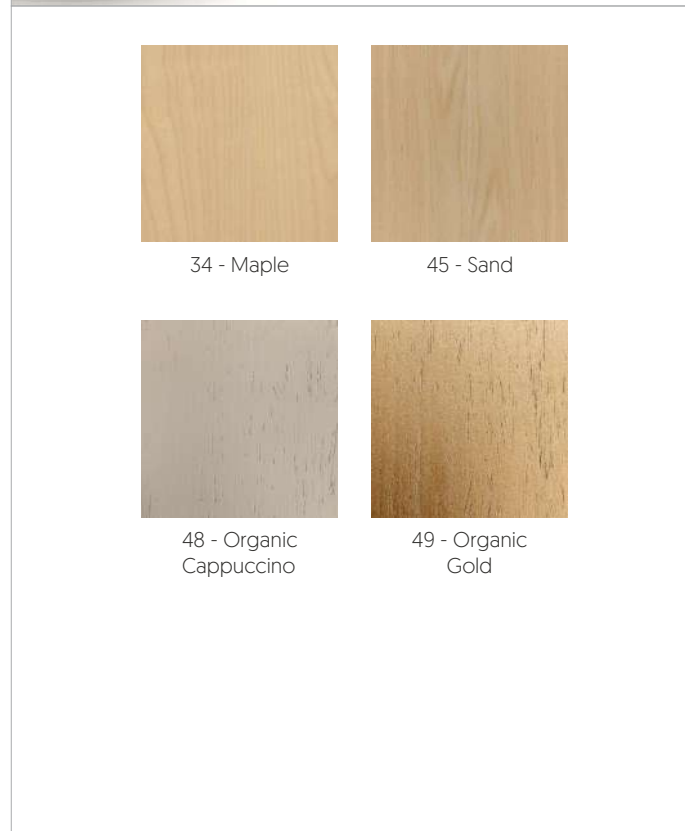

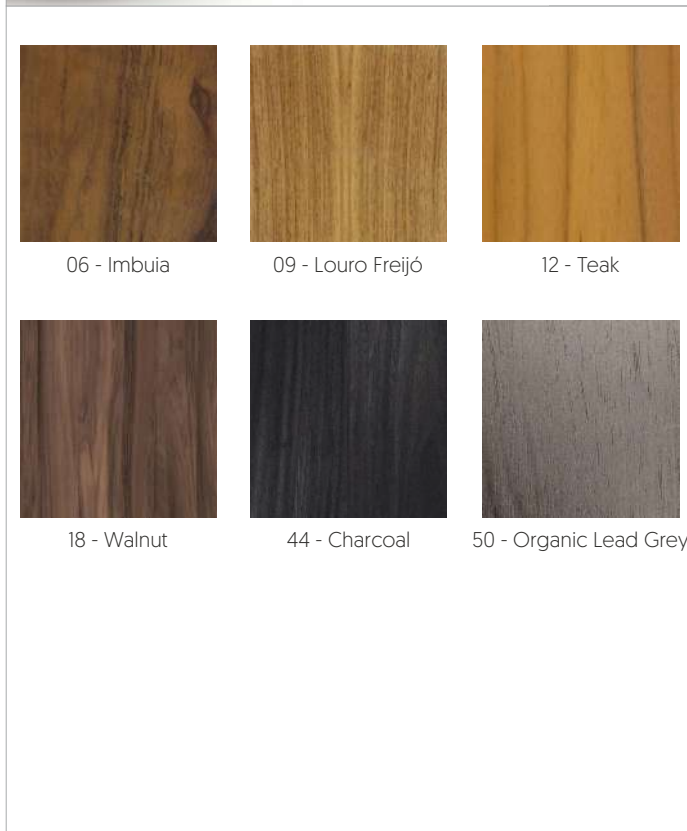

39
LEAD GREY

The finishes exemplified here are representative and may suffer variations from the original item. Please use them only as a guide for selecting colors. Physical samples are available through our partners or by contacting our sales team. Due to natural variations in texture, grain patterns and nodal marks, color tones of natural wood veneers will differ. These are part of the inherent beauty of the material and cannot be regarded as defects.

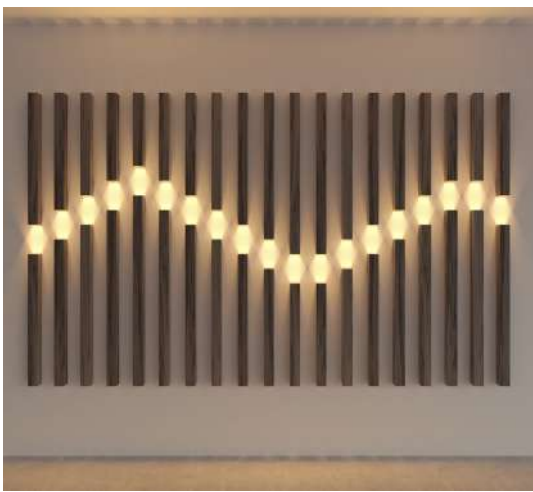

Preset Cable Options

Seeking to offer multiple possibilities for customizing each model, we offer three different colors for the power cables. If the color of the power cable is not specified, the luminaires follow the pattern specified below according to their predominant finish.

Exclusive Manufacturing

In addition to customization, Accord Lighting offers an exclusive manufacturing service.

Custom details & Design flexibility

In addition to all the available options we also offer the Exclusive Manufacture service so you can add your personality to the product that you acquired, having something unique. Contact our sales team to find out your customization options.

Accord Lighting sustainability statement

Accord Lighting LLC hereby declares that all sources of wood comes from fully sustainable sources, this meaning that we do not buy from exploratory illegal operations.

All of our suppliers are certified and have the required permits to grow species they harvest themselves, or work on a Sustainable forest management method. According to FAO (Food and Agriculture Organization of the United Nations) defines Sustainable forest management (SFM) as "a “dynamic and evolving concept, which aims to maintain and enhance the economic, social and environmental values of all types of forests, for the benefit of present and future generations”. Forests and trees, when sustainably managed, make vital contributions both to people and the planet, bolstering livelihoods, providing clean air and water, conserving biodiversity and responding to climate change."

Accord Lighting LLC acknowledges that the usage of unsustainable sources of wood is not only morally wrong but also a serious federal crime.

Our operation is certified by IBAMA (Brazilian Institute of the Environment and Renewable Natural Resources) and our suppliers uses the FSC® seal

FSC (Forest Stewardship Council) certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. The FSC Principles and Criteria provide a foundation for all forest management standards globally, including the FSC US National Standard.

Os Produtos, seus componentes, características gerais e aplicações que são rigorosamente avaliados e eventualmente aprovados quanto a sua salubridade na interação com a vida humana, recebem selo HBC-PROD.

Produtos certificados se diferenciam dos demais por agregar à sua fabricação, venda e uso a ideia precípua da preocupação com a saúde humana em primeiro lugar contribuindo para a diminuição das doenças provocadas pela edificação.

Healthy Building Certificate

Certification Office Department

Certificação nº

PROD20220606BRAPR0024
Luminárias Accord

Aviso legal

Este certificado possui validade e vigência de acordo com os termos e condições do contrato celebrado entre a empresa responsável pelo produto certificado e o Healthy Building Certificate. O uso do Healthy Building Certificate é também regido pelo referido contrato e manual de uso conforme especificado no site <https://hbcertificate.com>, não podendo ser utilizado de formas diferentes daquelas especificadas, sob pena de sanções contratuais e legais.

Quality

One of the reasons why Accord has become a national and international reference is the quality of its products. We work with the best materials and suppliers on the market, which allows us to guarantee an impeccable final result.

Wood

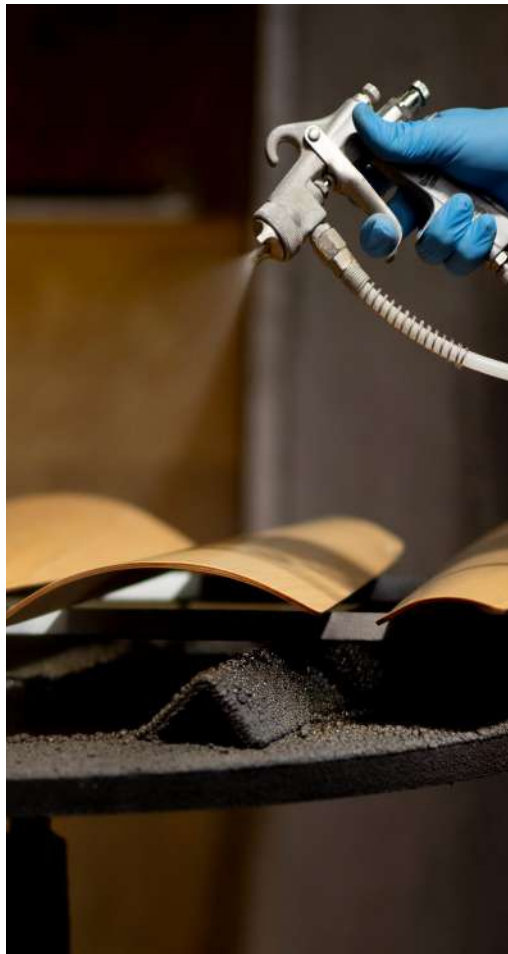

All of our woods carry the FSC certification, this means that they are harvested by responsible and sustainable sources. The wood grain is different in each fixture, this means that the fixtures that you own are unique

Lacquers

Our paints come from Italy from extremely high quality manufacturers, they supply us with a variety of options that are standard in our offerings, but they also allow us to customize any color our clients may want within a short period of time. Low VOC [volatile organic compounds]

Crystals

Our Crystal supplier is Asfour, they provide us with extremely high quality Crystals from Egypt.

Acrylic

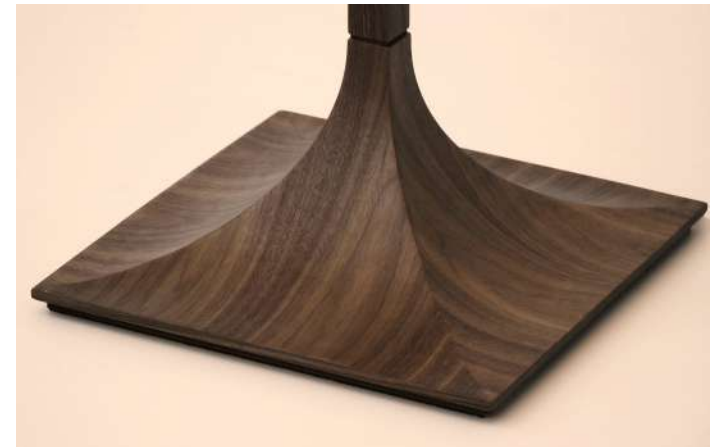

We use high quality acrylic diffusers in our fixtures, this ensures a good amount of lighting distribution. Our acrylics are reliable, stainless and easy to maintain.

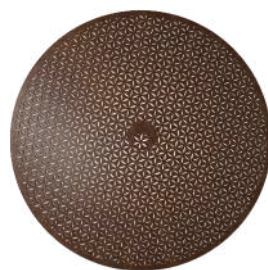

Innovative Design

The result of all our effort, attention, care and love deposited in our products, is our DNA, Light, wood and sophistication

Final Considerations

Designers

Aiming to achieve an identity in its products' design, in 2017 Accord founded its own design studio, called Studio ACCORD. Always looking for the protagonism of wood enhanced by light, the creation of products is always the result of seeking for the elegance of timeless and singular design.

30 years with several partnerships in the city of Florianópolis and in the states of Rio Grande do Sul and Paraná. Mari develops partnerships with several architects and seeks constant renewal and multiculturalism enriching work in architecture and its scope in search for better solutions.

Elegance and simplicity of forms in architecture in addition to varied possibilities that new technologies and materials can offer, are the conceptual premises that characterize our work in development of new projects, combined with technical rigor solutions and project compatibility

Daniela Ferro and Alexandre Rocha

Daniela Ferro is a product designer, partner and coordinator of Asa Design. Daniela designs pieces aimed at high end market decoration, and that are manufactured within standards of excellence and loyalty to the project.

Alexandre Rocha is a designer. He participated in the Mission Brazilian Designers in the United Kingdom, where he improved his vision of design as a business tool.

Asa Design is a sixteen year old design office that has a strong presence in the furniture and objects market decoration.

Architect and Urbanist, He has been working in the area since 2003 with architecture projects, interiors and furniture design.

He seeks beauty, sustainability, the balance of materials, and affective memory in his works. Its main source of inspiration is the Brazilian architecture.

Bruno Diego Felipe

Born in the southwest of Paraná in a family of Italian immigrants, he learned early on the importance of nature, customs, culture, and spirituality, growing up in direct contact with the natural environment and appreciating the bucolic landscape and the inherent riches of the countryside. Graduated in Architecture and Urbanism from the Federal University of Southern Frontier and specializing in Interior and Furniture Design from the Community University of Chapecó Region, he found his vocation in professional practice as a product designer. His creations have been exhibited in national and international shows and selected for awards such as the Design Museum of Brazilian House Award, the Brazil Design Award, and the Abilux Design Award for Lighting, winning two IF Design Awards in 2023.

“ I try to find the right balance between emotion, beauty and functionality. My mission is to convey feelings through design, applying it to everyday reality. ” Sara Bevilaqua is passionate about lines, shapes, colors and emotions. She is an architect, designer and interior designs specialist. Since 2004, she has sought to create fixtures and environments that convey personality and beauty with results capable of moving and being correlated with her visual and intuitive experiences. The tireless search for knowledge and new perspectives under the world, add unique and peculiar lines to each drawing.

For professionals

Accord Lighting offers tools to help professionals during the process of choosing and specifying our products.

Our catalog is a detailed book of the options available for selection and our website is an online library for professionals, with projects that serve as inspiration, new product launches and technical specifications always up to date.

Downloads

Accord is proud to be one of the first Brazilian lighting companies to offer 3D models of all our lighting fixtures for free to download for professionals. On each product page, you will find datasheets and 3D files to use with your favorite software.

Available for all digital devices, our website allows filter and consult technical information.

Overview

The location chosen for installation must support the weight of the product. Accord Lighting is not responsible for any damage caused by accidents, caused by use or inadequate installation. Changes to the product will void the warranty. Our luminaires are for indoor use only.

Lamps

Lamps are not included. LED lamps are recommended and traditional incandescent lamps are prohibited due to overheating.

Integrated LEDs

Luminaires with LED technology, LED modules or LEDs, are a totally integrated solution, including the power source compatible light and driver. Accord Lighting reserves the right to change the specifications of the LED components due to changes in supply. Flow information lighting, energy consumption and other data are indicated in the technical sheets available on the website. Dimmers are not provided. For adjustable versions, check compatibility of the dimmer with the light source. All power ratings and installation instructions from manufacturers' instruction sheets of dimmer must be followed.

Canopy

The color of the canopies follows the color chosen for the luminaire. If another finishing is necessary, check availability with our sales team.

Important reminder

Accord Lighting reserves the right to make changes technical or formal information on any product without prior according to its policy of continuous product improvement.
